Partnerships for Learning

Building & Construction Pathways

Certificate I in Resources & Infrastructure (Doorways to Construction – D2C)

Course Description

Students will complete competencies and skills related to the civil construction industry. The skills are relevant to a range of areas under the umbrella of building and construction including unroofed construction, demolition, rail and road works, utilities construction, landscape construction and structural engineering.

Benefits for students

• Increase student’s awareness of employment opportunities.
• Develop work ready skill, including undertaking white card, work placement and OHSW.
• Develop skills that could lead to apprenticeships or employment.

Pre-Course Experiences/Pre-requisites

No pre-requisites are needed, however, students should;
• be in year 11 and 12;
• be interested in pursuing a career pathway in the Building and Civil Construction Industry.

Structured Work Placement

Students must undertake 2 weeks (80hrs or the equivalent) of Structured Workplace Learning. Please note you may be required to undertake this during school holidays.

Course Code: UEE21911 – RTO: tafesa 40161
